Subject: RE: Draft Utility Maps (UNCLASSIFIED)

All,

1. Need dust control when they are clearing.
2. Need to separate all the illegally dumped trash, tires, etc. and not bury it in the "mound" the LOGCAP contractor said they would do east/west for optics.

On our way there, we noticed all the signs along Montana Ave are faded - JR counted 65 signs. Also many trespassers.

Respectfully,

(b) (6) [REDACTED]

Subject: RE: Draft Utility Maps (UNCLASSIFIED)

Sir,

I have not been able to write an update on the meetings yesterday and today.

Big change today is that the LOGCAP team wants to develop parcels west of Site Monitor and utilize Site Monitor buildings for admin, medical, legal, etc.

Issues are going to be:

- pressurize system for water to use as fire suppression and restrooms in Site Monitor
- what is the potable source?
- how much power can be supplied from the Site Monitor to the DHS site?
- where are the sewage manholes at Site Monitor and the expected DHS site?

There are more issues that (b) is capturing and some that I haven't thought of. (b) (6) had a few concerns that will need to be addressed as well.

More to follow.

Yours,

(b)

(b) (6) ,

Is this map still needed? If so, do you want the dimension in feet from the hospital electrical substation to site-monitor and from Montana to site-monitor along the existing roads cutting through the parcel or along the boundary of the parcel to the areas?

Thank you,

(b) (6) ,

Pls add two 75 acre rectangles within the EA area in close proximity to site-monitor just for reference. Also, provide the dimension in feet of all the sides of the EA parcel, from the hospital electrical substation to site-monitor and from Montana to site-monitor.

Thx.

They were asking for the portion of the parcel that is covered by the EA. They don't want to plan something in a location that they come to find out is not within the perimeter of the footprint offered.
